

Pitch Deck

What is Droplet Social?

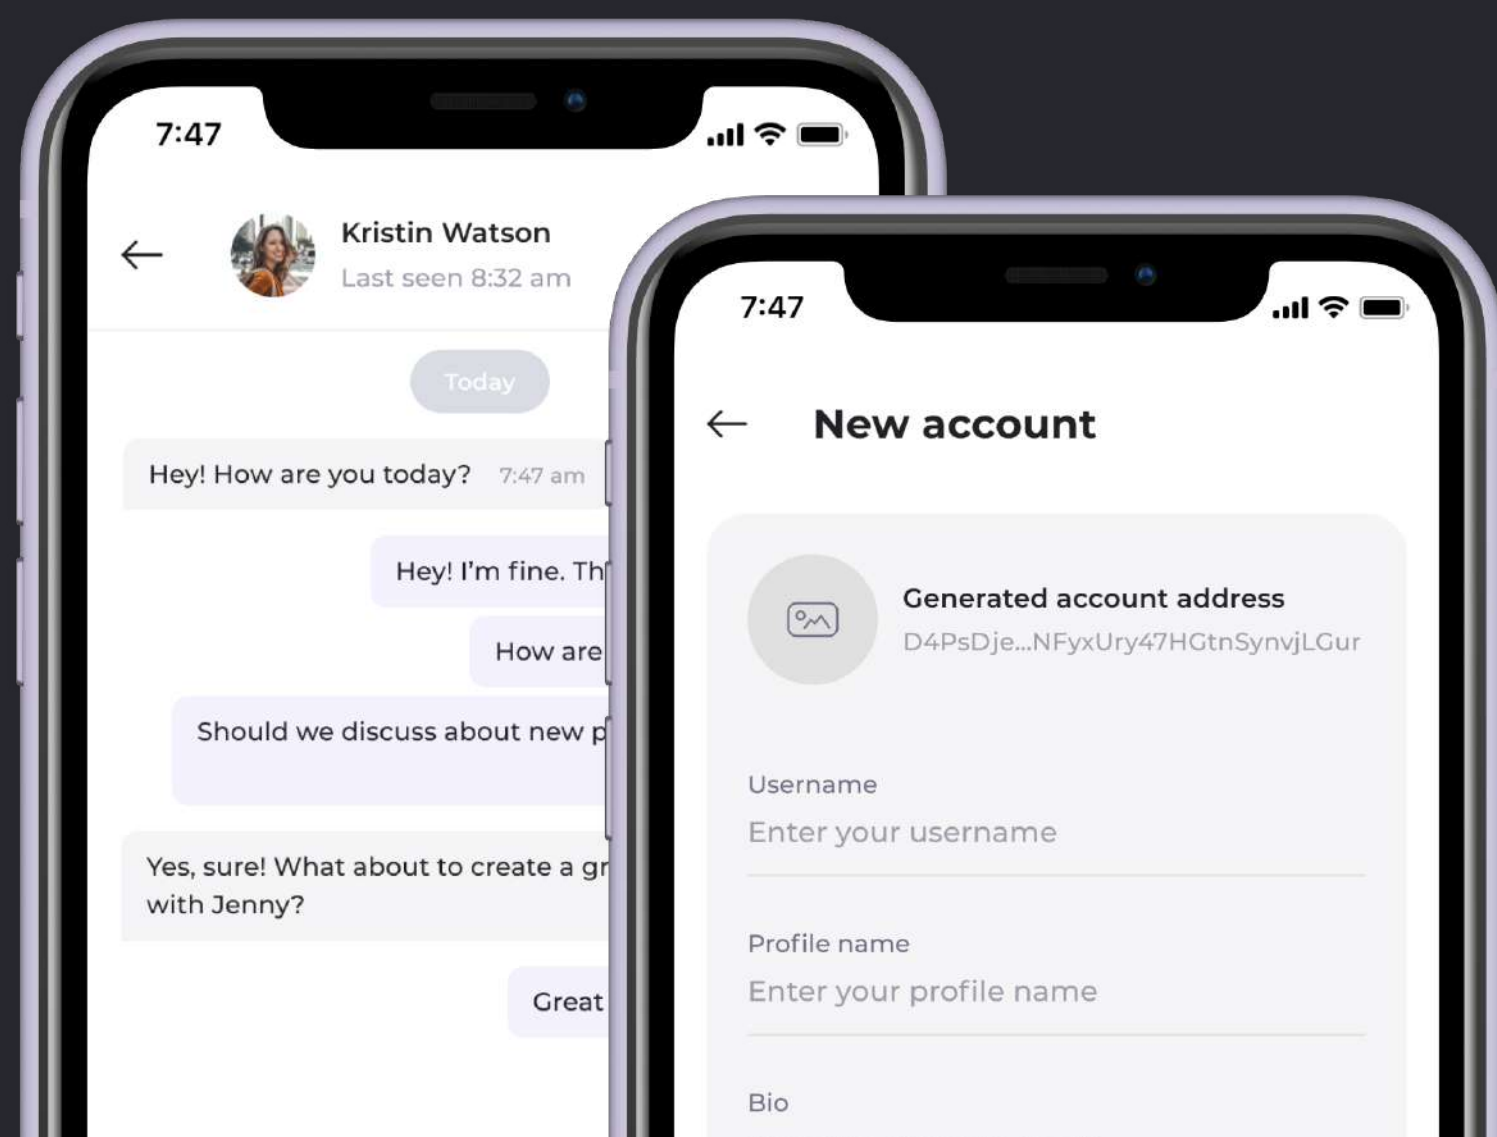

Droplet Social is envisioning a complete, decentralized social networking platform that is powered by blockchain technology. We envision a platform that provides an all-in-one solution from users switching between different applications with its own uniqueness: instant messaging, photo sharing, article writing, and job search.

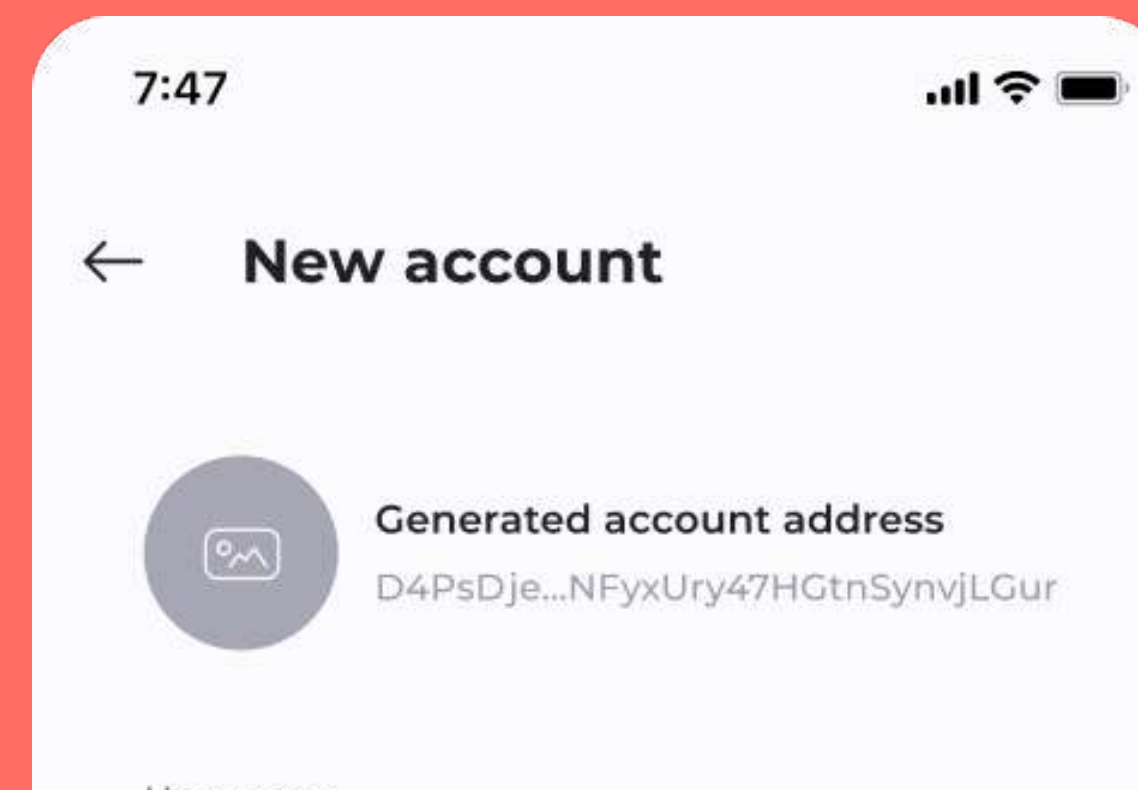

Droplet Messenger

Droplet Messenger is a secure, encrypted, on-chain messenger application built on the Solana blockchain. With on-chain messaging and pseudo-anonymous account generation, Droplet Messenger application provides the most secure peer-to-peer messaging application.

Censorship Fee

All users on Droplet create accounts in an anonymous manner. Users are not asked of personal information prior to creating a contact.

Encryption

With account generation to messaging all on-chain, enjoy the most decentralized and encrypted social networking service powered by blockchain technology.

Finance

On the personal decentralized wallet, users can send, receive and store DROPS and any other Solana based cryptocurrencies.

DROPS
